

**REMARKS**

In a communication mailed August 19, 2004, Applicants requested amendment to the title of the application to remove the phrase "AND METHOD OF FORMING" in response to an election requirement between method and structure claims. Only method claims have been allowed in the subject application. The title was amended so that only a method is included as the title of the invention. Therefore, entrance of the amendment is justified. The PTOL-85 form (NOTICE OF ALLOWANCE AND FEE(S) DUE) mailed to Applicants reflected the original title without the requested previous amendment. Applicants therefore request correction of the title as "Method For Forming A Non-Volatile Memory Having A Reference Transistor".
